### ABOUT ME

Who am i?

I'm Omar Balaqadashov.

As a software developer with over 4 years of experience, I have developed a wide range of technical skills and a deep understanding of the software development process. I am highly experienced in multiple programming languages, including Python, and JavaScript, and have a strong background in both front-end and back-end development.

### WORK EXPERIENCE

#### React & Django Developer

**Self Digital Agency** [ 10/01/2019 – 15/06/2022 ]

**City:** Baku

**Country:** Azerbaijan

- Experience building web applications using React and Django framework
- Experience with creating and consuming RESTful APIs using Django Rest Framework
- Familiarity with React hooks and functional components
- Experience with Redux for state management in React
- Experience with Django models, views, and templates
- Experience with database management and migrations using Django's ORM
- Familiarity with front-end build tools such as Webpack or Babel
- Experience with Git for version control

#### React & Django Developer

**Smor MMC** [ 25/12/2021 – 08/04/2022 ]

**City:** Baku

**Country:** Azerbaijan

I have developed an e-commerce site using React and Django, demonstrating proficiency in both frontend and backend development. My expertise extends to leveraging technologies such as Celery, Redis, MongoDB, PostgreSQL, Docker, and AWS to optimize the platform's performance and scalability.

In my projects, I've integrated these technologies to enhance not only the frontend but also the backend, ensuring a seamless user experience and achieving specific webpage objectives. By amalgamating React, Django, and other tools, I optimized the site structure, navigation, page loading speed, and graphics integration, thus enhancing user satisfaction.

Moreover, I successfully implemented several enhancements that significantly improved web functionality and responsiveness, ensuring a smooth and intuitive user interface across various devices. This comprehensive skill set enables me to deliver well-rounded e-commerce solutions that cater to the evolving demands of the digital landscape while leveraging the power and flexibility of Celery, Redis, MongoDB, PostgreSQL, Docker, and AWS.

## React & Django Developer - Remote

**Archetypal Brain -Turkey** [ 04/07/2022 – 15/01/2023 ]

Country: Türkiye

- Developed and maintained web applications using React and Django framework
- Built and consumed RESTful APIs using Django Rest Framework
- Utilized React hooks and functional components for building reusable UI components
- Implemented Redux for state management in React
- Created and maintained database models, views, and templates using Django's ORM
- Managed database migrations and optimized database queries
- Utilized Git for version control and collaboration
- Experience with front-end build tools such as Webpack and Babel
- Worked with cross-functional teams to deliver high-quality and responsive web applications.
- **Technologies:** Javascript, React.js, Python, Django, Docker, MongoDB, Linux, Git/GitHub, AWS

## Python / Django Developer

**Software Company · Contract** [ 07/01/2023 – 05/07/2023 ]

City: London

Country: United Kingdom

- Utilized Python, Django, jQuery and Java etc. to design server applications and client interfaces.
- Evaluated development standards and procedures of engineering processes.
- Managed continuous maintenance and troubleshooting of Python Django projects.
- Handled development and management of front end user interfaces with help of HTML, CSS and JavaScript.
- Created and deployed applications on diverse range of platforms including Linux and Solaris.
- Collaborated with other developers to handle complicated issues related with deployment of Django based applications.
- Developed and maintained a complex web application using Python, Django, and related technologies, resulting in a 25% increase in user engagement and a 20% increase in revenue within the first year.
- Wrote custom Python code to extend Django applications, resulting in a 30% reduction in development time and a 15% increase in overall code quality.

### Web Scraping App - React / Django Developer

[ 01/08/2023 – 02/09/2023 ]

I am a skilled developer specializing in building web scraping applications using React and Django. My expertise includes utilizing technologies such as Celery, Redis, MongoDB, PostgreSQL, Docker, and AWS to optimize application performance and scalability.

In my projects, I have effectively employed asynchronous task processing using Celery and Redis, ensuring efficient data management and responsiveness. I have also utilized MongoDB and PostgreSQL databases to securely store and manage data, meeting high standards of reliability.

Proficient in containerization with Docker and leveraging AWS services for hosting and scaling applications, I ensure seamless deployment and consistent performance across various environments. My experience in this field has equipped me to develop high-performing web scraping applications that cater to diverse business requirements.
